1. Short title and commencement.—(1) These rules may be called the Central Health Service Rules, 1963.

(2) They shall come into force on such date as the Central Government may, by notification in the official Gazette, appoint.

TABLE

| Sl. No. | Class of scale | Category | Scale of pay | Classification |
|------------|-------------------|--|--|-----------------------------------|
| 1 | Super-time Scales | A (i) D.G.H.S. (ii) Additional D.G. H.S. (iii) Other posts | Rs. 2,750/- fixed. Rs. 2,250/- fixed. Rs. 1600-100-2000. | Central Health Service, Class I. |

5. Authorised permanent and temporary strength of the Service.—(1) The authorised strength of the various categories of the Service on the appointed day shall be as specified in Part D of the First Schedule.

(2) After the appointed day, the authorised strength of the various categories shall be such as may from time to time be determined by the Central Government.

(3) The Controlling Authority may interchange any post included in the junior scale with any post included in the senior scale without altering the authorised strength of each category, so that, when a vacancy arises in the senior scale, the senior most officer in the junior scale recommended by the Departmental Promotion Committee for promotion may be appointed to the senior scale.

Illustration.—If a vacancy arises owing to promotion, retirement, resignation or death, in the post of a Radiologist in the senior scale, and the senior most officer in the junior scale recommended for promotion is a Psychiatrist, the post of Radiologist will be transferred to the junior scale and the post of Psychiatrist will be transferred to the senior scale. The Psychiatrist could then be promoted to the senior scale. The post of Radiologist transferred to the junior scale will be filled by promotion or direct recruitment, as the case may be.

6. Inclusion or exclusion of posts in the Service.—(1) The inclusion, in the Service, of posts of Supertime scales, Categories A and B, and Senior scale of Class I shall be without prejudice to their absorption in the Indian Medical and Health Service, if and when that Service is constituted.

(2) Notwithstanding anything contained in these rules, officers of the Indian Medical and Health Service, if and when constituted, may be appointed to posts in the junior scale of class I of the Service for purposes of training.

(3) The Central Government may, in consultation with the Commission, include in the Service, any post other than those included in the Schedule or exclude from the Service a post included in the Schedule.

7. Initial appointments to the Service.—(1) The Commission shall constitute a Selection Committee or Committees with the Chairman or a member of the Commission as President, a representative of the Ministry of Health and two medical officers nominated by the Ministry of Health, as members to determine the suitability of departmental candidates for appointment to the different categories and to prepare an order of preference for each category for the initial constitution of the Service. Officers possessing basic medical and public health qualifications and appointed regularly on the recommendation of the Commission to posts in the Directorate General of Health Services, New Delhi or in the Central Drugs Laboratory, Calcutta, or in the All India Institute of Hygiene and Public Health, Calcutta, for which basic medical and public health qualifications have been prescribed as one of the alternative qualifications, may also be considered by the Committee or Committees aforesaid to determine their suitability for appointment to the different categories of the Service.

(2) On receipt of the Committee's report, the Commission shall forward its recommendations to the Government and such recommendations may include a recommendation that a person considered suitable for appointment to a category may, if sufficient number of vacancies are not available in that category, be appointed to a lower category.

(3) Departmental candidates who are not absorbed in the initial constitution of the Service will continue to hold the posts to which they were appointed regularly, and for this purpose, these posts shall be deemed to have been excluded from the Service for so long as they continue to hold them.

(4) Vacancies in any category which remain unfilled after the appointment of departmental candidates selected under sub-rules (1) and (2) above shall be filled by direct recruitment through the Commission.

NOTE.—An officer will have no claim or special right for placement in the Service on the basis of *ad-hoc* arrangements made in posts with or without consultation with the Commission.

14. **Leave, pension and other conditions of service.**—(1) Officers of the former Indian Medical Service (Civil) appointed to the Service shall, even after such appointment, be entitled to the privileges in respect of leave, pension, additional pension and other conditions of service which they had enjoyed prior to their being appointed to the Service.

(2) Leave, pension and other conditions of service, except the age of compulsory retirement of persons, other than those mentioned in sub-rule (1), appointed to the Service, shall be as for officers of Central Government. (2) the non-practising allowance of a member of the Service appointed to any other post shall be so restricted as to ensure that the pay in that post plus non-practising allowance does not exceed Rs. 2,250/- per month:

Provided further that the restriction laid down in clause (2) of the preceding proviso shall not apply to a member of the Service already in receipt of non-practising allowance on the appointed day at the rate of 25% of pay subject to a maximum of Rs. 400/- per month, unless he is promoted to a higher scale of pay.

16. **Regulations.**—The Central Government may make regulations not inconsistent with these rules, to provide for all matters for which provision is necessary or expedient for the purpose of giving effect to these rules.

17. Relaxation.—The Central Government may, in consultation with the Commission, relax any provision of these rules to such extent as may be necessary to ensure satisfactory working of these rules or to remove any inequitable results:

Provided that the power shall not be exercised so as to relax essential qualifications prescribed for appointment by any of the methods specified in the rules (including promotion) or the provisions regarding pension and age of retirement.

18 Interpretation.—If any question arises relating to the interpretation of these rules or the regulations made thereunder the decision of the Central Government thereon shall be final.
